**General Comment:****COGCC Inspection Report Summary**

On Wednesday 3/15/2023, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Miller 6, at Location # 383325 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

C/A (stored equipment) has not been addressed from previous inspection document # 700703643. All other C/A's appear to have been addressed.

During this inspection the following compliance issues were observed:

1. Meter calibration card not conspicuously posted.
  2. Stored/unused equipment from previous inspection is still present. C/A date remains the same (3/8/2022)
  3. Tank missing information
  4. Chemical tank containment is full of fluid.
  5. Paraffin and hydrocarbon sheen on water in tank containment.
- Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.

**Location**Overall Good: ☐**Signs/Marker:**
