<p>COGCC Inspection Report Summary On Friday March 24, 2023 at approximately 11:00AM, I, Inspector Randy Silver, conducted an on-site inspection. Location: Sack #44-31 Operator: KP Kauffman API#:123-15891 County: Weld While there, I observed an active release mediation project and shut in well. During this inspection the following possible compliance issues were observed: Trash: Rule 606 Corrective action date of 3-31-23 See photo 6 Debris: Rule 606 Corrective action date of 3-31-23 See photos 6,7 Weather conditions: Clear I spoke with onsite foreman and welder at time of inspection. When I drove up on location welder was in open excavation. I ask what they were doing Welder stated going to install 3" Transition to attach 3" SDR 11 poly line. I ask to see monitor, hot work permit and asked about JSA. Crew had not filled out said documents. I informed crew until a gas monitor and proper paper work was filled out I was doing a safety shut down. Approx. 15 later Crew supervisor arrived of site with monitor and paper was filled of and signed. A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.</p>	silverr	03/24/2023
