**General Comment:****COGCC Inspection Report Summary**

On 03/09/2023 at approximately 14:44 hours, I, Compliance Specialist, Wayne Smelser

Conducted an on-site inspection at CAERUS PICEANCE LLC UNOCAL 22-4 Pad

Location # 335823 in Garfield County Colorado.

Split location, production separation equipment &amp; production tanks located at Middlefork Station facility #'s 419757 &amp; 470699

Location is located in a high priority habitat area.

While there, I observed normal production operations.

During this inspection the following compliance issues were observed:

1. Stormwater - Chemical BMP's not maintained with a CA date of 03/17/2023
2. Calibration info not conspicuously posted with a CA date of 03/20/2023

Called operator & spoke to Jack Barnes in the operations control center. Informed him of the stormwater issue with the chemical BMP's, he advised me that they'd notify the pumper & take care of the observed compliance issue asap.

A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
