RE: Abandoned Wells  
West Fork #1  
NWNW 19-3S-55W  
Washington, Colorado  
API# 05-121-05543

GENTLEMEN:

A wellsite inspection on July 27, 1990 revealed that plugging work on the above captioned well is incomplete. The wellhead must be cut off and steel plate welded across cut off. Electric service poles and miscellaneous equipment must be removed.

Colorado Oil and Gas Conservation Commission Rule 319 requires abandoned sites to be cleared of equipment and restored within a reasonable time not to exceed six months from the plugging date. The well was plugged October 21, 1989. Please notify this office in writing of your compliance within 30 days of this notice date.

If you feel another party is responsible please have them file a Form 10 and bond for this location. Feel free to contact this office if there are further questions regarding this well.

Sincerely,

John R. Stowell  
Deputy Director
