**General Comment:**

On 4/5/2023, Reclamation Specialist O'Malley conducted an interim reclamation and stormwater inspection at Mustang Resources LLC's JUHAN RULISON UNIT-66S94W/34NESW Location #322325 in Garfield County, Colorado.

The following compliance issues were observed during this inspection:

- Stormwater; working pad lacks stabilization

Refer to the "Reclamation" and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment

Areas of the location not needed for production have been reduced and reclaimed. Interim areas appear vegetated with introduced perennial grasses (smooth brome, crested wheatgrass) and alfalfa. No noxious weed concerns observed at the time of this inspection. However, full vegetation assessment and definitive species identification was not possible due to dormant season. A follow up inspection will be conducted during a future growing season to determine compliance with 1003 requirements.

		Compaction				
		Gravel				
Compaction	Fail					
Gravel	Fail					

  

Comment:	It was observed in this inspection that the Location shows signs of lack of stabilization BMPs in some areas, as is evidenced by the presence of ruts. Tracking control BMPs to minimize/mitigate tracking and offsite sediment transport are missing or insufficient.	
Corrective Action:	Install or repair required BMPs per Rule 1002.f.	Date: 04/14/2023

  

**Pits:**    ☒ NO SURFACE INDICATION OF PIT
