Date: 02/10/2023

The corrective action date is the date the location was observed out of compliance.

Response: CA COMPLETED

Date of Completion: 03/06/2023

Operator Comment: Standard Resources conducted work on access road and sediment discharge issues, cattle guards were pulled to clean out the frozen snow buildup all gas cans have been moved into containment; gravel was picked out of the fields and raked up along the ditch. Porta-John was uprighted on 2/10/2023 (severe winds have been occurring regularly and blew the building over). Added another tie-down to T-post to secure the porta-john. Road work and landwork on-going; working with an adverse landowner limiting Uplands ability to conduct work. Landowner has been provided a scope of work for approval; no response or approval given to date. Landowner locked gate on 3/30/23 locking a Upland contractor onsite and prohibiting outside water trucks to access location. Upland had to call Weld county sheriff department in order to continue to pump wells and release contractor from site.

OPERATOR COMMENT AND SUBMITTAL

Comment: Upland has been contending with an adverse landowner making it difficult to conduct work. Currently, Upland due to landowner locking gate on 3/29/2023 restricting access and locking our contractor onsite and prohibiting water hauling trucks to enter almost creating a disaster. Upland has now retained counsel which provided a detailed scope of work for landowner approval. We have yet to receive a response from the landowner which has significantly restricted our ability to complete all work in a timely fashion.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
