

A wide-angle photograph of an industrial site, identified as the LLN Pad, taken from the southeast corner looking west. The foreground is a dry, gravelly dirt road. In the middle ground, there is a cluster of industrial equipment including two large brown storage tanks, a white cylindrical tank, and a small tan metal building. Several yellow safety bollards are positioned around the equipment. To the left of the road, there is a small, shallow, muddy pond. The background shows a flat, open landscape under a clear blue sky with some wispy clouds. The shadow of the person taking the photo is visible in the bottom right corner.

have been pulled.

LLN looking SW

LLN looking east

LLN removed stained soil and
rock

Replaced with new soil & rock

LLN west edge looking south

A photograph of an oil wellhead and a solar-powered pump system in a desert environment. The wellhead is on the left, featuring a vertical pipe with various valves and a green hose. To its right is a solar pump system consisting of a white cylindrical tank on a concrete base, with two solar panels mounted on a stand. The ground is covered in gravel and dirt, with tire tracks visible. The background shows a flat desert landscape under a clear blue sky. A shadow of the person taking the photo is visible in the bottom left corner.
