Re: C & C #1 Kodak
Weld Co., Colorado

Gentlemen:

In order to secure a tubular goods allocation from Lone Star Steel Co. for second quarter drilling, we must furnish them with an approved permit and statement of a rig availability.

Enclosed is Form #2, together with a check for \$75.00, covering Application to Drill covering the above well.

Since we have not staked the location, the plat will be filed later. We must be drilling by June 15th, however, at this time we wish the information to be kept confidential.

Believe Clark Colton has cleared this with your office.

Please return the approved copy as soon as possible.

Yours very truly,

COLTON & COLTON

Howard F. Colton
