Comment:

Corrective Action:	<p>The well location and access road consist mostly of weeds that is not reflective of reference areas. Refer to the attached photos.</p> <p>Due to the lack of desirable vegetation establishment, COGCC is requiring soil sampling. Operator shall take samples along portions of the failed reclamation and background reference samples for comparison. Operator shall take discrete samples at six (6) inches intervals to a minimum depth of two (2) feet. See COGCC Comments Section for details on analytics.</p> <p>Note- Operator may need to install temporary fencing to facilitate on-going grazing operations.</p>	Date <b>04/20/2023</b>	
	<p>Comply with Rule 1004 to conduct additional reclamation. The corrective action date is the date the location was observed out of compliance.</p> <p>For soil samples, submit results via Form 4 Sundry Notice to the attention of Chris Binschus no later than two weeks after receiving results. Soil samples shall be overlaid on an aerial map depicting where soil sample locations and reference samples were taken.</p>
