Jobs

Job ARO	Job Type COGCC INSPECTION	Major Contractor H-2 ENTERPRISES LLC	Job Start Date 1/10/2023	Job End Date 4/10/2023
------------	------------------------------	---	-----------------------------	---------------------------

Primary Status COMPLETE	Objective UPRC 33-7F (API 123-15422) & 8F Battery Insp Doc #: 697504270 Well Facility ID: 247625 Loc ID: 328006 Insp Photos Doc #: 697504273, http://ogccweblink.state.co.us/DownloadDocumentPDF.aspx?DocumentId=5889318 Comments: This is an Interim Reclamation inspection at the associated tank battery for a well which is part of an AOC (Order No 1V-668). All equipment has been removed from the associated tank battery. It does not appear the Operator has performed reclamation activities at the tank battery location since there was no desirable vegetation observed. The former tank battery area would be considered cropland. Corrective Actions: Perform reclamation in accordance to Rule 1003. Collaborate with the landowner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities or crop production.
----------------------------	--

Summary
On April 10, 2023, UPRC 33-7F was deep ripped to a depth of 18-inches, vibrashanked and disced for seedbed preparation, then a drill was used to apply Triple Super fertilizer and cover crop seed. Two bales of certified weed free straw were blown across site then crimped into dirt as a soil stabilization parameter on 0.5 acres (0.3 acres of pad, 0.2 acres of road).
