Operator Comment: A sign was installed. However, according to COGCC rules and definition, this location does not qualified as a "tank battery" because it is a blowdown tank and is not the point of collection and disbursement (tank, meter, LACT unit) of oil or gas from producing well(s). We believe this location should fall under 605.h but not 605.e.

COGCC Decision: Approved pending re-inspection

COGCC Representative: Approved pending re-inspection of this FIR resolution acknowledges the document was received. It is not an acknowledgement that the corrective action has been passed. A field inspection will be conducted at a future date to evaluate compliance with COGCC rules.
