June 12, 1964

Mr. Rex Monahan  
Box 1231  
Sterling, Colorado

Dear Rex:

Enclosed per your request are certified copies of documents submitted on the # 1 Luft well, located in the NESWSE of Section 5, Township 7N-Range 52 W Logan County, Colorado.

I have reviewed our production records on the Columbine field in which this well is located and find that no production was reported to this Commission prior to November 1962 and at that time the production of 9,290 mcf of gas was reported by you. At no time did the Gem Oil Company ever report any production from this well.

As I pointed out, the individual operator's monthly production reports for the years prior to 1962 have been destroyed in accord with the instructions of the Archives department of the state. However, if you would care for a certified record of production as taken from our records by one of our employees, we would be glad to submit the same to you.

If we can be of further assistance in this matter, please contact us.

Yours very truly,  
OIL AND GAS CONSERVATION COMMISSION

William R. Smith, Deputy Director

Doucette
