**General Comment:****COGCC Inspection Report Summary**

On Wednesday 5/10/2023, I, Inspector Scott Ramsey, conducted a routine inspection at Fahey State 12-1, at Location # 324673 in Jackson county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed well pump jack not operating and electric motor disconnected at time of inspection. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area.

Previous Inspector has C/A's for tubing stored, lack of Braden head and Access road over grown and difficult to locate from inspection # 689803371, 689804466 and 689806431 have not been addressed.

During this inspection the following compliance issues were observed:

1. No BMP's installed to prevent sediment migration from occurring on location.
2. Location and access is covered with vegetation.
3. Lease road shows signs of lack of stabilization/compaction.
4. Access road to well is not marked or maintained
5. No API posted on well head
6. No evidence of Braden Head access.
7. Random debris

Refer to photograph of observed compliance issue.

A follow up on this site inspection may be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
