## WELL ABANDONMENT REPORT

This form is to be submitted as an Intent to Abandon whenever an abandonment is planned on a borehole. After the abandonment is complete, this form shall again be submitted as a Subsequent Report of the actual work completed. The approved intent shall be valid for six months after the approval date, after that period, a new intent will be required. Attachments required with the Intent to Abandon are wellbore diagrams of the current configuration and the proposed configuration with plugs set.

A Subsequent Report of Abandonment shall indicate the actual work completed. Attachments required with a Subsequent Report are a wellbore diagram showing plugs that were set and casing remaining in the hole, the job summaries from all plugging contractors used, including wireline and cementing (third party verification) and any logs that may have been run during abandonment.

\*Wireline Contractor: No wireline performed

\*Cementing Contractor: No cement placed

Type of Cement and Additives Used: \_\_\_\_\_

Flowline/Pipeline has been abandoned per Rule 1105 ☐ Yes ☐ No

Technical Detail/Comments:

This well is in the Orphan Well Program,

D & B Ventures Ferguson #1 API 05-067-05236.

Well was plugged 11/16/1962 Plugging Record Doc #00677394 and 2/7/1963 Completion Report Doc #0677395. Methane assessment and Soil Gas Survey were performed by Cottonwood Consulting. Both came back negative. No Bradenhead test was performed due to no Bradenhead. Well has cement to surface in Surface Casing and 2-3/8" tubing. The tubing was used to place cement in well and was left in place. Surface casing set to 57' then open hole to 1,500'. Cottonwood, COGCC OWP and COGCC Engineering recommended to cut, cap and bury well. Well was cut 4' below grade and well marker plate welded on.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
