### ALLEGED VIOLATION

Rule: 1003.b

Rule Description: Interim Reclamation - Areas No Longer In Use

Initial Discovery Date: 06/28/2022

Was this violation self-reported by the operator? No

Date of Violation: 04/10/2017

Approximate Time of Violation:

Was this a discrete violation of obvious duration? Unknown

Description of Alleged Violation:

Pursuant to Rule 1003.b, Genesis Gas and Oil Colorado LLC ("Operator") shall reclaim all disturbed areas affected by drilling or subsequent operations, except areas reasonably needed for production operations or for subsequent drilling operations to be commenced within twelve (12) months, as early and as nearly as practicable to their original condition or their final land use as designated by the surface owner and shall be maintained to control dust and minimize erosion to the extent practicable.

COGCC staff conducted an inspection on June 28, 2022 (document no. 696203802), of the Fletcher Gulch 4-41 ("Location"), and observed that the Location and access road have been constructed, and pipeline infrastructure, including risers, pipes, and a valve can/cellar installed on the Location and along the access road. Staff conducted an audit of Operator's records and determined that Operator's Form 2, Application for Permit to Drill ("APD") expired on April 10, 2016 (document no. 400473086) and Operator's Federal APD expired on July 31, 2010 (document no. 1828336). Staff directed Operator to comply with Rule 1004.a and conduct final reclamation of the Location and access road by September 15, 2022.

COGCC staff conducted a follow-up inspection on April 27, 2023 (document no. 696204895) and observed corrective actions requiring Operator to conduct final reclamation of the Location and access road were not taken.

Operator failed to reclaim all disturbed areas to their original condition or final land use as designated by the surface owner, violating Rule 1003.b.

Abatement or Corrective Action Required to be Performed by Operator:

Corrective Action Due Date: 07/19/2023

**Proper and timely abatement does not preclude the assessment of penalties and an Order Finding Violation.**

Comply with 1004 rules and conduct final reclamation including, but not limited to, removal of surface equipment and risers, abandonment of flowlines, compaction alleviation, recontouring/regrading, and revegetation activities on the Location and access road.

Stormwater BMPs are required to be installed in accordance with Good Engineering Practices, and maintained in proper functioning condition at all times until Location receives a passing final reclamation inspection.

Rule: 1004.a

Rule Description: Final Reclamation - Well Sites Reclamation

Initial Discovery Date: 06/28/2022

Was this violation self-reported by the operator? No

Date of Violation: 04/10/2017

Approximate Time of Violation:

Was this a discrete violation of obvious duration? Unknown

Description of Alleged Violation:

Pursuant to Rule 1004.a, Genesis Gas and Oil Colorado LLC ("Operator") shall, upon the plugging and abandonment of a well, all pits, mouse and rat holes and cellars shall be backfilled. All debris, abandoned gathering line risers and flowline risers, and surface equipment shall be removed within three (3) months. All access roads to plugged and abandoned wells and associated production facilities shall be closed, graded and recontoured. Culverts and any other obstructions that were part of the access road(s) shall be removed. Well locations, access roads and associated facilities shall be reclaimed. As applicable, compaction alleviation, restoration, and revegetation of well sites, associated production facilities, and access roads shall be performed to the same standards as established for interim reclamation under Rule 1003. All other equipment, supplies, weeds, rubbish, and other waste material shall be removed. All such reclamation work shall be completed within twelve (12) months on non-crop land after plugging a well or final closure of associated production facilities.

COGCC staff conducted an inspection on June 28, 2022 (document no. 696203802), of the Fletcher Gulch 4-41 ("Location"), and observed that the Location and access road have been constructed, and pipeline infrastructure, including risers, pipes, and a valve can/cellar installed on the Location and along the access road. Staff conducted an audit of Operator's records and determined that Operator's Form 2, Application for Permit to Drill ("APD") expired on April 10, 2016 (document no. 400473086) and Operator's Federal APD expired on July 31, 2010 (document no. 1828336). Staff directed Operator to comply with Rule 1004.a and conduct final reclamation of the Location and access road by September 15, 2022.

COGCC staff conducted a follow-up inspection on April 27, 2023 (document no. 696204895) and observed corrective actions requiring Operator to conduct final reclamation of the Location and access road were not taken.

Operator failed to conduct final reclamation of the Location and access road, violating Rule 1004.a..

Abatement or Corrective Action Required to be Performed by Operator:

Corrective Action Due Date: 07/19/2023

**Proper and timely abatement does not preclude the assessment of penalties and an Order Finding Violation.**

Comply with 1004 rules and conduct final reclamation including, but not limited to, removal of surface equipment, compaction alleviation, recontouring/regrading, and revegetation activities on the Location and access road.

Stormwater BMPs are required to be installed in accordance with Good Engineering Practices, and maintained in proper functioning condition at all times until Location receives a passing final reclamation inspection.
