General Comment:

On 6/21/2023, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at PRE Resources Inc's Government Buttram 1 location in Garfield County, Colorado.

This is also a follow-up inspection to #696203758 dated 6/14/2022, #696204007 dated 8/23/2022, #696204441 dated 12/5/2022, and NOAV #403429381 to document compliance for the following corrective actions:

- Comply with 1004 Rules by 7/31/2022
- Comply with Rule 1002.f by 8/25/2022

It was observed in this inspection that the Location remains out of compliance with COGCC Rules, corrective actions, and NOAV corrective actions.

The following compliance issues were observed during this inspection:

Refer to the "Reclamation" and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Corrective Action: _____ Date **07/31/2022**

Comply with 1004 rules and conduct final reclamation of the Location including by not limited to compaction alleviation, recontouring and revegetating; conduct weed management and continue to monitor/manage Undesirable and Noxious plants to prevent further spread and establishment. Weed management is required until site receives a passing final reclamation inspection pursuant to Rules 1004.e and 606.c.

Comment: Previous inspections observed that BMPs to control stormwater runoff in a manner that minimize erosion, sediment transport and site degradation are missing from the access road, and cut slopes of the Location; gully erosion evident. Inspection required Operator to comply with 1002.f, and the temporary BMPs are required until final reclamation work is completed, at which point additional BMPs will be required to stabilize the seeded soils and reclamation areas.

It was observed in this inspection that stormwater and erosion control BMPs remain missing or insufficient; unable to find evidence that work to address the CA was conducted; erosion degradation has persisted. Original CA and CA date remains applicable.

Corrective Action: Comply with 1002.f; implement and maintain stormwater and erosion control BMPs in accordance with good engineering practices. Ongoing stormwater monitoring/management required until site receives a passing final reclamation inspection.
