Inspected Facilities:

Facility ID	Type	Status	Status Date	Well Class	API Num	Facility Name	Insp Status
470886	TANK BATTERY	AC	01/15/2020		-	UPRR 42 Pan Am D 2 battery	EI

General Comment:

COGCC environmental inspection to determine progress on Spill ID 481819. This is an environmental inspection. Photos attached to document site conditions.

Any corrective actions from previous inspections or conditions of approval from previous forms that have not been addressed are still applicable.

Current site status: Above ground storage tank has been removed from location, stained soil was left in place surrounding the former tank, fencing around the tank battery has been taken down and is scattered throughout the location, various equipment is not properly stored on location, overall site conditions are very poor.

LocationOverall Good: ☐

Emergency Contact Number:

Comment: No signage at the separator or the above ground storage tanks.

Corrective Action: Install sign to comply with Rule 605.e.

Date: 08/10/2023

Good Housekeeping:

Type	UNUSED EQUIPMENT		
Comment:	Equipment related to the former tank was left on the location. This includes piping connected to the tanks, stairs leading to the tanks that were on its side in the middle of the location pad, and barbed wire fencing surrounding the former tank.		
Corrective Action:	Comply with Rule 606.	Date:	07/26/2023
Type			
Comment:	Overall housekeeping is very poor.		
Corrective Action:		Date:	
Type	WEEDS		
Comment:	Weeds overgrown throughout the location		
Corrective Action:	Comply with Rule 606.	Date:	07/18/2023

Overall Good: ☐

Spills:				
Type	Area	Volume		
Crude Oil	Tank	<= 1 bbl		
Comment:	Spill on east side of the former crude tank appears mixed with water.			
Corrective Action:	Control and contain spills/releases and clean up per Rule 912.a. Remove free fluids and contact COGCC EPS staff per Rule 912.b.			Date: 07/12/2023

In Containment: No

Comment: ☐ Multiple Spills and Releases?

Fencing/:			
Type	LOCATION		
Comment:	Barbed wire fencing around the tanks have been unstaked and are scattered throughout the location.		
Corrective Action:	Per Rule 603.h, Oil and Gas Facilities will be adequately fenced to restrict access by unauthorized persons.		Date: 07/21/2023

Equipment:			corrective date
Type: Flow Line	#		
Comment:	Flowlines or crude oil transfer lines not maintained to prevent failures or leakage connected to the former tank. Integrity issues not corrected. Valves not locked and tagged out.		
Corrective Action:	Maintain active and inactive flowlines and crude oil transfer lines to meet rule 1102.i.		Date: 07/12/2023

Tanks and Berms:

Contents	#	Capacity	Type	Tank ID	SE GPS
CRUDE OIL					,

Comment:	Flowline or transfer line has been left in place but is not connected to the west above ground storage tank. The storage tank has not been removed or abandoned at this location.	
Corrective Action:	Per Rule 1105.b, Upon removing a flowline or crude oil transfer line from use with the intent to abandon, an operator must immediately apply OOSLAT to the risers. OOSLAT must stay in place at all times during the process of abandoning the flowline or crude oil transfer line until the operator removes the riser.	Date: 07/12/2023

COGCC Comments

Comment	User	Date
Overall site conditions are very poor. The former tank was removed, however the operator has performed no remediation at the site. A follow up site inspection is needed to ensure that the addressed compliance issues comply with CECMC rules.	ahmadiiaa	07/11/2023
