Please see below consent for the Farmer 1 (05-001-06904) re-entry. Work can't begin until 8/1 and we must be out of the location with any and all work by 11/1.

Thank you,
Jeremy Sonnier

Hello Jeremy,

Consent is granted subject to a required access permit provided prior to commencement of work and entry.

Thank you,

Jeff DeLisio

Jeff

Would FRICO be willing to consent to the re-entry work for the Farmer 1 well on FRICO owned property now, but with the caveat that the work and entry would be subject to a required access permit to be provided prior to commencement of work? We're required to submit surface owner

consent with our form 6 submittal to the COGCC before the Form 6 is approved for the well work.
Let me know what you think. Thanks!

Thank you,
Jeremy Sonnier
