Comment: This location does not comply with Rule 1004. During this inspection, Staff observed that debris and equipment remain on location. While the recalimed portion appears to be progressing towards Rule 1004 standards, undesirable vegetation (e.g. CO List C Noxious weed-cheatgrass) was observed and does not appear to have been managed with evidence of plants dropping seeds. All equipment and debris will need to be removed and the undesirable vegetation will need to be managed for. Refer to attached inspection photos.
