Re: New API County Sequence Code

Due to the Nov. 15, 2001 creation of Broomfield County it is necessary to adjust our records. All oil and gas wells in Broomfield County have been given the new County Code number of 014. This new County Code must be used on all information given to the Oil and Gas Commission pertaining to the well.

The listing below will give you your new API County Code along with the sequence number to be used for each well. In a few instances you might also have a new sequence number.

All the changed information on the wells listed below will be in effect immediately and any new information sent to the Commission must include these changes. Production reports for the month of October 2002 must reflect these changes. All past data at the Commission has been changed to reflect the new numbers.

Please check each well and notify me if you disagree with the information listed. Please notify me in writing if you believe this list is incomplete, or has wells listed that are not in Broomfield County.

The **bolded** wells below are producing wells.
