JAN

I spoke with Kyle Travis of Strat Land  
w.r.t. final P&A of #1 Cook CSW 7-335-43w.

Well not PA but is cased.

He said they finished testing well & ready  
for PA during planting season. Farmer requested  
that P&A wait till next summer. Strat Land  
agreed to wait and they are anxious to plug.

I told Mr. Travis if PA did not commence  
by May 1-87 to send Sunday or letter  
explaining situation.

DO NOT REQUEST ANY DATA  
UNTIL AFTER.
