INRE: PLUGGING of the old
Hawkins well:
Sec 24, Twp 2N R 3W Ute
Frank L Hynes Property.

Gentlemen:

Please enclosed find in duplicate, information on the plugging of the controversial well drilled in section 24, township 2N., Range 3 W, Ute PM, in Mesa County, Colorado.

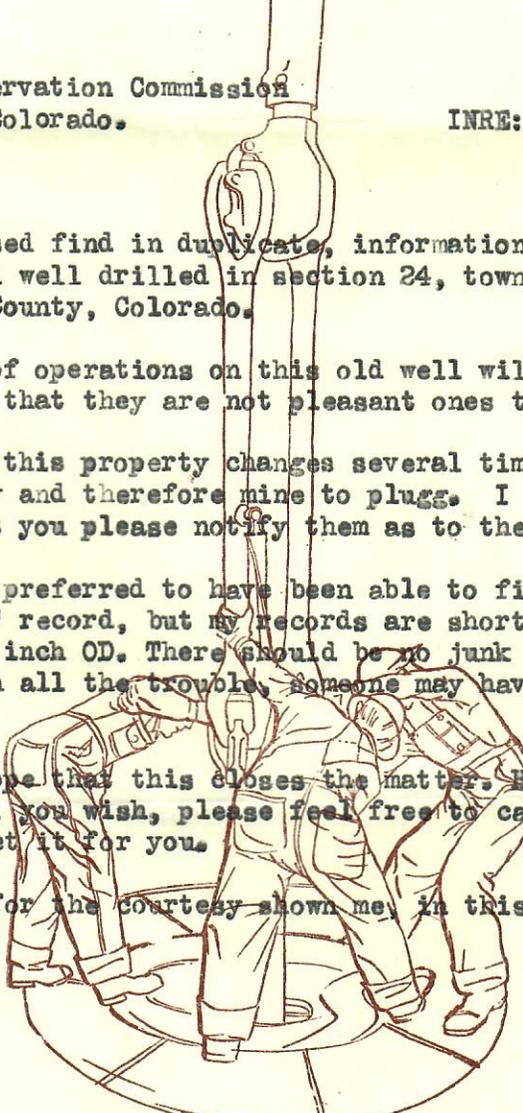

The records of operations on this old well will date back to 1948 and I assure you that they are not pleasant ones to me, nor your office.

The lease on this property changes several times and finally became my responsibility and therefore mine to plug. I have the bond up in my name and ask that you please notify them as to the release.

I would have preferred to have been able to fill out more fully the "Details of Work" record, but my records are short here on the well. However, the casing was 7 inch OD. There should be no junk in the hole, that I know of. However, with all the trouble, someone may have thrown something in the well.

I sincerely hope that this closes the matter. However, IF there is any more information, you wish, please feel free to call me and I will do my best to try to get it for you.

Thanking you for the courtesy shown me in this most unhappy matter, I beg to remain,

Yours truly,
Carl Losey
