Gentlemen:

Over two years ago I got "suckered" into taking out a bond on a well being drilled in Mesa County, Colorado, near Fruita by the Edna Exploration Company. The well was called No. 1 Stiner, Section 24-2N-SW. Shortly after I took the bond out the drilling was stopped, and I do not know what happened to the well. I do not know whether it was satisfactorily plugged or whatever you call it. However, my insurance agent tells me that I have to go on carrying the bond as I am stuck with it.

I would like for you to write me to tell me what I should do in this case. Also, send me forms so I can try to contact someone to find out if whatever has to be done is done so I can get off this bond.

I would appreciate on prompt answer from you.

Sincerely,

N. A. Brethouwer, M.D.
