Denver, CO 80203

Re: SE1/4 of the SE1/4, Section 11, T. 1 N, R. 102 W, of the
6th P.M., Rio Blanco County, Colorado.

Dear Dennis:

As I mentioned in our telephone conversation today, I am writing to inquire about the above-mentioned 40 acre tract. I have had great difficulty in making a determination as to how much oil has been taken, and continues to be taken, from this tract dating back to the mid 1950's. The opinions I have received have varied greatly.

In particular, and subject to whatever limits you have on information available to you, I am most interested in learning the following:

1. Is there current production occurring on the property, and if so, to what extent.
2. Has there been production on the property dating back to 1955, and if so, to what extent.
3. What companies, if any, have been involved in production on the property during those time periods, and most importantly, who, if anyone, is producing at present.
4. Any information concerning the present operator under U.S. Government Lease Serial, Denver 033804(b), which contains additional lands other than this specific property.

Enclosed is a copy of a letter written by your organization in 1957 which indicates that oil production was occurring on the property during that time. I thought this letter might be helpful to you as a starting point.

Thank you very much for your assistance in this matter, and please don't hesitate to give me a call with any questions or comments. If my request for information is beyond the scope of

As I mentioned in our telephone conversation today, I am writing to inform you that the above-mentioned 60 acre tract, I have just received a determination as to how much oil and gas is contained in the tract, and this determination has been made, and a determination to be taken, from this tract. I have received the information I have received have varied greatly.

In particular, and subject to whatever limits you have on information available to you, I am most interested in learning the following:

1. Is there current production occurring on the property, and if so, to what extent?

2. Has there been production on the property dating back to 1957, and if so, to what extent?

3. What operations, if any, have been involved in production on the property during these time periods, and most important, was it any, is production at present?

4. Any information concerning the present operation under the Government Lease (Serial, Number 033804(b)), which operation additional lands other than this specific property.

Enclosed is a copy of a letter written by your organization in 1957 which indicates that oil production was occurring on the property during that time. I thought this letter might be helpful to you as a starting point.

Thank you very much for your assistance in this matter, and please don't hesitate to give me a call with any questions or comments. If my request for information is beyond the scope of
