Dear Mrs. Douchette:

Excuse this informality, my facilities as far as an office goes is out of Business for today. Re: Well No 7 SW $\frac{1}{4}$  NE $\frac{1}{4}$  Sec. 11 - TWP 1N - R102W was drilled by R.M. Goldston DBA Jack White Drilling Co. to a T.D of 2098', show oil at 2020', & completed. as a producing oil well on 3-20-57, main oil at 2090'-98' initial prod 115. BBPD. - Deepened during May 1956 to 2873' - Produced occasionally to June 1961 - was not operated since then that I can get a record of, until I reopened the well May 16<sup>th</sup>, 1964. see your Sundry Notice dated 5-9-64 & Recd by you on May 14, 1964. Proper location this well <sup>1470 ft</sup> ~~2490'~~ S/N Line & 2490' W of E Line Sec 11.

This is all the information that I have on this well - I hope it will be of some help.

Yours very truly

Paul Morand
