While there, I observed producing wellheads.                      During this inspection the following possible compliance issues were observed:                      1. It appears to be stained soil at one wellhead. Conduct maintenance on equipment, cleanup stained material and review self inspection processes per Rule 1002.(2).d. (Corrective Action Date: September 30, 2023) See attached photo #4, 5.                      A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.                      This is a summary of inspection report.</p>	santistb	08/30/2023
