Rangely
 Field

87 McLaughlin SW SE NE 26 1 N 102 W DPM 6th PM
 (Well No.) (Lease) (1/4 Sec.) (Sec.) (Twp.) (Range) (Meridian)

The Well is located 2,200 Ft. XX of Section Line and 1,000 Ft. XX of
 Section Line. (S) (W)

The elevation above sea level is _____ Ft.

Details of Plan of Work: (State names of and expected depths to objective sands.
 Show sizes, weights, and length of proposed casings; indicate mudding jobs, cementing
 points, and all other important proposed work.)

Well will be drilled to test the Mancos shale section to a depth of approximately
 2,100 feet. Well will commence in the Mancos Shale and will be drilled to total
 depth with cable tools. As is the general practice with these shallow wells in
 this field, no pipe will be set in the hole unless production is obtained, in which
 case one joint of 8 5/8" surface pipe will be cemented as a conductor pipe at the
 surface.
