Mr. William R. Smith, Deputy Director
Oil & Gas Conservation Commission
312 State Services Building
Denver, Colorado 80203

Dear Mr. Smith:

Our Ivory #1 well located in Section 34-2N-97W Rio Blanco County, Colorado, was completed as a shut-in gas well and has an open flow potential of around 4 or 5 million feet of 1000+ BTU gas.

This well is not Calif. Oil Group

I presume that when you ask about "McLaughlin #34 and #62" you refer to A. C. McLaughlin, Jr. #34 and A. C. McLaughlin #62. Both of these wells are marginal oil producers which we are allowing to stand. Our Government #1-16 is a shut-in gas well, and our University of Texas #1 well is another marginal producer that is now standing. I can not identify what you call Patented #29. If you will give me a more accurate name, I will be happy to look it up for you.

76-1N-102

Very truly yours,

CALIFORNIA OIL GROUP, LTD.

to come in
