General Comment:

This is a Construction and Stormwater Inspection.

Note- ECMC Staff, Chris Binschus, contacted an Operator representative on 10/3/2023 to discuss the observations from the inspection. Also, Staff coordinated with the Operator to ensure the Form 42 Notice of Construction was properly submitted. Operator used the OGD ID instead of the Location ID for the Form 42 Notice of Construction.

<p>Comment: Operator has installed stormwater and erosion control BMPs during the construction phase of the location throughout the disturbance areas, including Weld County stormwater requirements. On 10/3/2023, Staff communicated to the Operator that sediment traps (ST) were not installed per good engineering practices- mainly the side slopes are 1:1; side slopes should be 2:1 or flatter. Also, there is no ST inlet protection and the inlet is a vertical drop into the ST. Staffs expectation is that the ST's will be constructed per good engineering practices as stated above. Also, culvert inlet and outlet protection was missing but Operator sent documentation that those BMPs were later installed on 10/4/2023.</p>
