General Comment:

Routine Inspection.

The name change of the Colorado Oil and Gas Conservation Commission to the Energy & Carbon Management Commission required major server updates and created sync issues for remote field personnel's computers. During this time personnel were not able to complete and uploaded inspections creating a lengthy lag between inspection dates and report submission dates. These circumstances are beyond the Operators control and required dates should be adjusted to match Inspectors FIR submission date. All corrective action dates have been adjusted to accommodate actual FIR submission date. Please contact me directly with any questions or concerns.

Inspected FacilitiesFacility ID: 271734 Type: WELL API Number: 095-06076 Status: SI Insp. Status: SI**Idle Well**Purpose: ☒ Shut In ☐ Temporarily Abandoned Reminder: _____

Comment: Electronic Well File reflects last Production/Status reported 8/1/2023 and Well Status as SI. Based on current valve settings at the wellhead and gas meter run the well was SI at time of inspection.

Last reported PR status 6/1/2021. Submitted Form 21, or Form 6 must be approved by the corrective action date for any wellbore not demonstrating current mechanical integrity. Wells demonstrating mechanical integrity must accomplish production without the use of mechanical intervention, or alternate methods documented on an approved Form 4 before production will resume. A mechanical integrity test will be performed on each Shut-in Well within 2 years of the initial shut-in date.

Corrective Action: Comply with Rule 417.b or submit Form 4 requesting TA status.

Date: 10/10/2023
