VEGETATIVE COVER _____

Comment:

Corrective Action:	<p>It has been two growing seasons since the previous inspection report and this location has not progressed towards reference area vegetative levels. There is a lack of desirable perennial establishment, as the location is dominated by kochia. Refere to the attached inspection photos.</p> <p>ECMC staff reviewed the well location file and did not find a Form 4 variance request indicated in the previous FIRR.</p> <p>Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.</p> <p>Submit the required variance via Form 4.</p>	Date 10/20/2023
