U.S. Development Corporation

Gentlemen:

We have not received any further data from the United States Development Corporation since our last letter to you dated June 27, 1961.

On May 19 we requested status of this well from United States Development Corporation and request was returned to us unanswered.

As of today we will again request status of this well. Bond must remain in force until such time as United States Development Corporation cooperates with us.

Very truly yours,
