Hello John,

I have pulled the profiles and looks like you had 1.92 tons in total, and a total of 11,500 gallons. Please let me know if you need anything else.

Thank you

Rick, I hope all is well with you. I am doing some follow up on this and need to know the total numbers for liquid waste and solid waste that we disposed of on this well.

Thank you,

John Chrisman

Hi John,

Your waste is approved for disposal at Phantom Landfill. The profile number for the solid waste is P-20220303-A and the profile number for the liquid waste is P-20220303-B.

We have next Wednesday, March 9 open. We would probably be able to be on site around 930. We can send a roll off to pick up the soil and a vac truck and trailer to get 4500 to 5000 of the liquid. We will then send a vac truck back to get the remaining 2200 to 2700 gallons of liquid.

The cost is \$125.00/hour for the trucks. The liquid is \$0.50/gallon, and the soil is \$0.50/ton.

Please let me know if Wednesday works for you and please call if you have any questions.

Rick McCalla
