Comment

Appears interim reclamation activities have been performed to reduce disturbance areas only needed for production operations. However, snow cover obscured much of the interim areas and a vegetation assessment will be conducted at a later date, therefore this location is being left "In-Process" until it is inspected at a later date. Operator shall continue to monitor and manage this site until the location meets Rule 1003 standards, including stormwater and weed management. Operator shall submit a Form 4 Interim Reclamation Complete notice when the location meets Rule 1003 standards. ECMC may conduct inspections prior to receiving said notice to ensure compliance with Rule 1003.

<p>Comment: This location does not comply with Rule 1002.f. During this inspection, severe erosion degradation was evident along the outer portion of the production areas. No apparent stormwater control measures/BMPs were observed that would prevent continued erosion degradation or sediment/soil from exiting off location into the adjacent drainage. Refer to attached inspection photos.</p> <p>Corrective Action: Comply with Rue 1002.f.
