DETAILS OF WORK

Total depth was 3577': Operator set 120' of 8 5/8" surface casing and cemented from top to bottom. A 6 1/4" hole was drilled from under surface to total depth. A slight show of oil was encountered at 2825-50 feet but was not sufficient to justify completion attempts. Operator received permission to plug and abandon. Hole was filled with mud from TD to 30'. From 30 feet to surface a cement plug was set. A 4" steel marker was set in hole and extends 4' above ground. Location was cleaned and pits filled.
