

April 13, 1971

Mrs. William J. Twenhoefel  
124 Orchard Drive  
Belleville, Illinois 62221

Dear Madam:

Enclosed find copies of history of well drilling, casing and cementing details for the Shell Oil and Equity Oil Co. #32-32 well located Sec 32-9N-90W, Moffat County, Colorado.

A Dual Induction-<sup>L</sup>Xaterlog, a Compensated Formation Density Log, and a Borehold Compensated Sonic Log-Gamma Ray were run July 30, 1970. However, we do not furnish copies of such logs as we do not reproduce strip logs. If you wish, you may order logs of these types from companies who reproduce such logs for sale. One such company is the Rocky Mountain Well Log Service Company, 1753 Champa Street, Denver, Colorado 80202.

Very truly yours,

OIL AND GAS CONSERVATION COMMISSION

Jules J. DeSalvo  
Assistant Petroleum Engineer
