Photo 3. The photo was taken at the tank battery location facing Northeast. Refer to the comment for photo 1.

Photo 4. The photo was taken at the tank battery location facing Southwest. The photo illustrates gully erosion at the West end of the pad.

Inspection Photos

Location Name: Jurgens PC B08-23

Location ID: 427389

Photo 5. The photo was taken at the tank battery location facing East. The photo illustrates a grounding rod left in the ground on location.

Photo 6. The photo was taken at the tank battery location facing Southeast. The photo illustrates rill erosion along the South side of the location.

Inspection Photos

Location Name: Jurgens PC B08-23

Location ID: 427389

Photo 7. The photo was taken at the tank battery location facing Southeast. The photo illustrates fencing materials left on location.

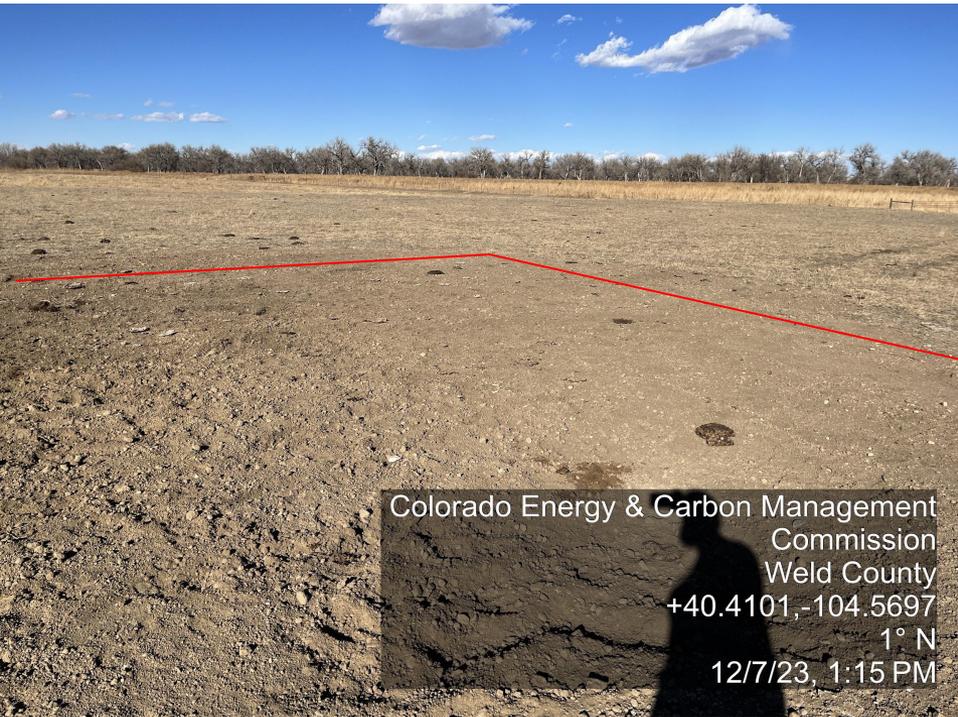

Photo 8. The photo was taken at the tank battery location facing Northeast. The photo illustrates what appeared to be leftover hay from a stack that was being stored on location.

Photo 9. The photo was taken at the well location facing Southwest. The photo illustrates what appears to be an active cut in the bank where material has been removed.

Photo 10. The photo was taken from the well location facing West. The photo illustrates reference vegetation beyond the red line, though it's been cut down by grazing.
