OIL AND GAS CONSERVATION COMMISSION

D. V. Rogers, Director

Dear Sirs:

The Huey #1 well is, at present time pumping 1 bbl. of oil & 50 bbls. of water. Since last report I have only pumped about 50% of time because of down times & equipment failure. If well depletes total fluid much more I plan to sand frac sometime in the future. I am still testing & have not completed well.

Millard Huey
