PLUGGING RECORD

INSTRUCTIONS

Within thirty (30) days after the plugging of any well, the owner or operator thereof shall file this form in duplicate for wells on Patented or Federal lands, and in triplicate for wells on State lands, give a detailed account of the manner in which the abandonment or plugging work was carried out, including the nature and quantities of materials used in plugging and the location and extent (by depths) of the plugs of different materials; records of the amount, size and location (by depths) of casings and junk left in the well; and a detailed statement of the volume and weight of mud fluid used.

Operator A. T. Skaer, et al. Field Mt. Hope North Wildcat
Lease Name J. F. Kirk Well No. 2 County Logan
Location SE SE SE Section 18 Township 9N Range 53W Meridian 6 PM
(Quarter Quarter)
330 feet from S Section line and 330 feet from E Section Line
N or S E or W

TOTAL DEPTH 5047 feetDATE OF PLUGGING October 29, 1958

DETAILS OF WORK

Well was drilled and plugged October 29, 1958. Based upon recovery of DST of the "D" sand and bottom hole pressure, it was decided not to attempt a completion. After well was plugged and report sent to other working interest owners, some of them wanted to run casing and attempt a successful completion. I was agreeable if we could get consent of one hundred per cent of the working interest owners. This is the reason I requested from Doug Rogers a delay in filing final Plugging Record. I was not successful in obtaining approval of interest owners on a one hundred per cent basis, so the idea of re-entering and drilling out cement plugs and running casing was given up and I filled the pits and leveled up location and the farmer has wheat planted on the location.
