**CORRECTIVE ACTIONS:**

4  CA# 189943

Corrective Action: Comply with 1003.f and 606.c. Date: 01/05/2024

Response: FACTUAL REVIEW REQUEST

Basis for Review: CA dates are not per the guidelines

Operator Comment: A weed management plan is in place, and the locations are evaluated and treated for weeds during the growing season. All weeds in the photos provided are dead, and treatment is not currently practicable. Thus, a corrective action with a due date of 1/05/2024 for future weeds that are not currently present is not necessary or reasonable to comply with these regulations.

COGCC Decision: **Not Approved**

COGCC  
Representative:

The date of discovery is given for all new corrective action dates. It is ECMC's expectation that Operators are in compliance with ECMC rules at all times. Therefore, the date the location was observed out of compliance is given as the corrective action date; this information was provided to Caerus within the "General Comment " section of the Inspection Report. Additionally, the comment associated with the corrective action within the report clearly states additional efforts will be required in the 2024 growing season.

Per the inspection, Caerus' weed management efforts on the Location were observed to be inadequate and the Location will remain out of compliance.
