**General Comment:**

ECMC Environmental Protection Specialist, Laurel Anderson, performed an Environmental Field Inspection on January 9th, 2024, for the following:

- JUNCTION-62N68W 2NWSW location (Location ID 336314)
- JUNCTION 22-2 well (API 123-27367)
- JUNCTION 12-2 well (API 123-27377)
- JUNCTION 11-2 well (API 123-27376)
- Remediation Project #27343
- Remediation Project #27339
- Spill/Release Point ID 484183
- Spill/Release Point ID 485125
- Spill/Release Point ID 485236

Photos attached document site conditions at the time of this inspection.

Any corrective actions from previous inspections and/or conditions of approval from previous forms that have not been fully addressed are still applicable.

**Wildlife BMPs:****Comment:** Netting over remedial excavations has been installed but has since begun to fall.

Corrective Action: Operator shall repair and maintain wildlife protection equipment.

Date: 01/26/2024

**Comment:** Per CA on Doc #710100055:  
 "-Vehicle trackout was observed onto CR 2450. Trackout pad requires maintenance  
 -No BMPs are in place to control stormwater runoff in a manner that minimizes erosion, transport of sediment offsite and site degradation. Northern perimeter of the pad is not stabilized and is showing signs of rill erosion and transport of sediment/pad material off location.  
 -Stormwater run-in to the open excavation has resulted in rill erosion, wall destabilization and transport and accumulation of stormwater and sediment within the open excavations."  
 Trackout was not observed at the time of this inspection.

**Corrective Action:** Per Rule 1002.f., oil and gas operators shall implement and maintain Best Management Practices (BMPs) at all oil and gas locations to control stormwater runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation.

Date: 10/10/2023

Ongoing issue - Corrective action due date back-dated to due date required on previous inspection Doc #710100055.

COGCC Comments		
Comment	User	Date
BMPs shall be maintained until the facility is abandoned and final reclamation is achieved pursuant to Rule 1004. Operators shall employ BMPs, as necessary to comply with this rule, at all oil and gas locations, including, but not limited to, well pads, soil stock piles, access roads, tank batteries, compressor stations, and pipeline rights of way. BMPs shall be selected based on site specific conditions, such as slope, vegetation cover, and proximity to water bodies, and may include maintaining in-place some or all of the BMPs installed during the construction phase of the facility. Where applicable based on sitespecific conditions, operators shall implement BMPs in accordance with good engineering practices.	andersoln	01/12/2024
