Comment This location does not comply with Rule 1003. During this inspection, it was observed that the interim areas are not progressing towards Rule 1003 standards as the interim areas and former access roads have significant weed cover (e.g. kochia and russian thistle) and are not reflective of adjacent reference areas. Additionally, it does not appear that all areas not needed for production have been reclaimed. Refer to inspection photos for documentation and examples.

Corrective Action Comply with Rule 1003. The location will remain out of compliance until the corrective action has been resolved.
