<p>COGCC Inspection Report Summary On Thursday 1/25/2024 at approximately 14:20 hours, I, Inspector Tom Peterson, conducted an on-site inspection at the PDC Energy Nelson K 27-63HN location #423305 in Weld County, Colorado. While there, I observed that the 400 bbl crude oil tanks lack contents, capacity and NFPA placards and the produced water vault lacked a capacity placard. During this inspection the following possible compliance issues were observed: Rule 605.h. with a corrective action date of 2/29/2024. A follow up inspection on this site needs to be conducted to ensure the compliance issues have been corrected to comply with ECMC rules. This is a summary of the inspection report.</p>	petersont	01/25/2024
