**Good Housekeeping:**

Type

Comment:

The portable toilet on the tank battery location is being secured by a single wire strung between a fence post to the bathroom vent. This may not be adequate if the location experiences heavy stormwater flows or wind.

Refer to the photos for more details.

Corrective Action:

Date:

Type

Comment:

Weed debris in the form of tumbleweeds were observed around some of the equipment and along the Southern fenceline of the tank battery facility. Tumbleweeds are a troublesome annual non-native weed that easily breaks off at the stem. Operator failed to control and manage weeds to prevent weed waste and prevent the spread of seeds onto adjacent lands.

Corrective Action:

Comply with Rule 606 to remove weed debris.

Comment Appears the Operator has performed interim reclamation activities to reduce disturbance areas only needed for production operations, with the evidence of vegetation germination. Germination was apparent throughout the interim areas however the areas were mowed at the time of inspection and will be left IN PROCESS until inspected at a later date during the growing season. The operator shall continue to monitor and manage this site until the location meets Rule 1003 standards, including stormwater and weed management. Operator shall submit a Form 4 Interim Reclamation Complete notice when the location meets Rule 1003 standards. ECMC may conduct inspections prior to receiving said notice to ensure compliance with Rule 1003.

Comment:

At the time of this inspection, no erosion issues were observed at the location or along the access road.  
  
Operator shall continue to monitor and manage this site for stormwater run on and runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation until the facility is abandoned and final reclamation is achieved pursuant to Rule 1004.
