

JAY TAYLOR
FIRST NATIONAL BANK BUILDING
AMARILLO, TEXAS

February 16, 1961

Mr. William R. Smith
Senior Petroleum Engineer
Oil and Gas Conservation Commission
Room 312, State Services Building
Denver 3, Colorado

Dear Mr. Smith:

I wish to acknowledge your letter of February 7 to Mr. Taylor concerning the No. 1 Rediess well in Section 9-T-2N-R54W.

Mr. Taylor is presently on a trip to the Orient, and I have been unable to find in his files the plugging information on this well. Some of these wells were drilled by Bruce Sullivan under Mr. Taylor's name, and it is possible he may have the file on this well.

In the event I do locate this information, I will promptly complete a Form 6 with the required information.

Yours very truly,

Robert Leckie

Robert Leckie
Secretary to Mr. Taylor

will file
