VEGETATIVE COVER _____

Comment: This location does not comply with Rule 1004. Reclamation rules require reclamation activities to be conducted within twelve months of plugging on non-cropland. Well was plugged 07/18/2018. It does not appear that the location is progressing towards reclamation rules and standards as the majority of the location is exposed/bare soils and undesirable vegetation was observed throughout the reclaimed portions. Additional reclamation activities are required in order to comply with Rule 1004. Refer to attached inspection photos.

Corrective Action:	Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.					Date	04/30/2024
