Re: Our Lease #3-01 Bent - Colorado
Frankfort #1-9 State
Section 9-21S-48W

Gentlemen:

It is our understanding that under Rule 331, the Commission requires a GOR test thirty days after the completion of each well and that such report to the Commission should be made within twenty days after the test.

Can you advise whether Frankfort has filed such a GOR test with the Commission, and if so whether the Commission has classified the subject well as an oil well or a gas well?

A reply at your earliest convenience would be greatly appreciated.

Very truly yours,

SINCLAIR OIL & GAS COMPANY

Bruce M. McIntyre
District Landman
