Notice to do work  Land: Fee and Patented   
 Report of work done  State  Lease No. \_\_\_\_\_

Colorado State Logan County Wildcat Field

1 (Well No.) Orville H. Plog (Lease) SW/4 (1/4 Sec.) 27 (Sec.) 9N (Twp.) 55W (Range) 6th (Meridian)

The Well is located 330 Ft. (N) of Section Line and 330 Ft. (E) of Section Line. (S) (W)

The elevation above sea level is - Ft.

Details of Plan of Work: (State names of and expected depths to objective sands. Show sizes, weights, and length of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

We <sup>propose</sup> to drill this well with rotary tools to a depth sufficient to test the "D" and "J" sands of the Dakota series. The approximate total depth will be 5650 feet. We expect to reach the top of the "D" sand at approximately 5400 feet, and the top of the "J" sand at 5500 feet. We will set and cement sufficient surface casing to protect the hole and surface bearing water sands. In the event formations are encountered carrying oil or gas, or both, in commercial quantity, casing will be run and cemented to total depth.
