**Environmental****Spill/Remediation:**

Comment: ECMC Environmental Inspection Remediation Project 30814 for well plugging, cut & cap and Rule 911 assessment. Well site is backfilled.

Operator reported a historical release associated with the well flowline on 1/19/2024 via email and Initial Form 19 Document #403660755. The Form 19 indicated a Release at the flowline point at the well site, and within the flowline corridor but was unclear whether Supplemental Form 19 was meant to encompass both release points. ECMC returned Form 19 Document #403660755 to Draft status on 1/23/2024 for clarifications regarding exact spill location(s). Form 19 Document #403660755 has not been resubmitted.

ECMC received a Supplemental Form 27 Document #403660157 on 1/19/2024 that appeared intended to address the Spill at the flowline. ECMC returned Form 27 Document #403660157 to draft status on 1/23/2024. Operator resubmitted Form 27 on 1/26/2024, and ECMC approved the Form 27 on 3/29/2024. This Form 27 does not include well assessment results. Form 6 Document # 403621899 indicated well was cut and capped 11/9/2023.

Corrective Action:

Operator shall submit well assessment data within 30 days (April 28, 2024) on a Supplemental Form 27.

Date: \_\_\_\_\_

Resubmit the Initial Form 19 addressing the requested corrections for the flowline release. This release remains undocumented by the Form 19 (immediate).

Emission Control Burner (ECB): \_\_\_\_\_

Comment: \_\_\_\_\_

Pilot: \_\_\_\_\_ Wildlife Protection Devices (fired vessels): \_\_\_\_\_
