General Comments

<u>User Group</u>	<u>Comment</u>	<u>Comment Date</u>
Environmental Data	Returned to draft for correction. There is a discrepancy between the facility id in the well information (Facility ID # 202125) and the facility ID in the sample information (facility id # 201948). For this type of sample the facility id numbers should be the same, since the sample was collected from an oil/gas well. Samples should only be submitted under the Facility ID for the well that sample was physically collected from. Samples should be collected from one well and submitted under the Facility of another oil and gas well for any reason.	02/23/2024
